

Lighting of the Fourth Advent Candle

Reader: We use evergreens to decorate our Advent Wreaths because in colder places, where Advent Wreaths were first used, these were the only trees to stay green all winter. They remind us that we have everlasting life in Christ.

Light the Fourth Advent Candle

Let us pray.

All: Lord, we stand with those through the ages who have longed for your coming. We rejoice with them for satisfying our longings through Jesus. Fill us with joy and gladness this season that many will see Jesus in us and find true joy. Amen.
